DETAILED ACTION

Allowable Subject Matter

Claims 1-3, 6, 8-15, 18, 20-27, 29, and 31-34 are allowed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: There is prior art disclosing the scanning of oversized document, combination of the parts and the printing of a merged document from the parts (see, for example, Yoshihara et al – U.S. Patent No. 5,465,163, Cullen – 6,038,349). There is also art teaching the making of marks by a user on the document to enable a user to further control/to help the program in the merging machine determine where partial documents should be connected at after they have been scanned (see, for example, Oura – U.S. Patent No. 6,128,416 – Fig. 4, and column 5, lines 38-45). However, the last limitation of the independent claims calls for the removal of marks by the replacement of the marks with adjacent image content. The references fail to explicitly teach this and only mention the erasing of a mark, but does not teach how such a removal is performed. The Examiner would like to note that the removal of unwanted marks is not unknown in other technologies, especially those relating to artifact removal (see, for example, Graham et al – U.S. Patent No. 5,821,915).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
